

APP908 - SVR

Putaway and Pickout

Process (DHL

Inhousing Project)

(HH)

Project to develop a solution for the recording of a storage location against SVR front and rear bumpers. Long term change request in with sequence provider. Short term software development to adapt "Next Level Process Manager" to handle the storage and retrieval of parts. Process steps can be defined through XML config. (2 off processes). Custom development required because of lead time with sequence provider.
